

## Online learning agreement

**What is a Learning Agreement?** The Learning agreement is one of the most important steps of any Erasmus exchange. It is a document that provides the student, host university and home university with key information on a student's Erasmus program.

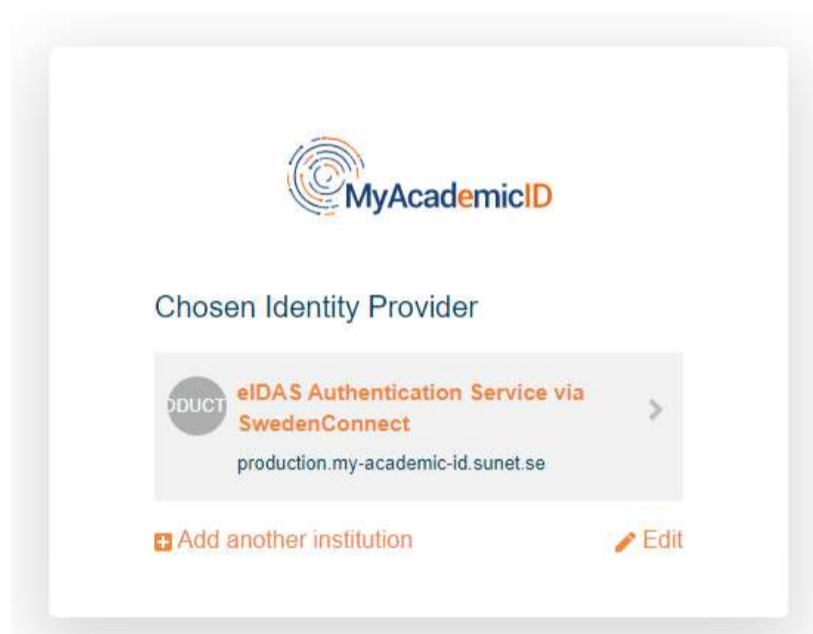

The purpose of the Learning Agreement is to provide definition of the Erasmus study program and to make sure the student receives recognition for the courses successfully completed abroad. It sets out the program of the studies, and courses to be followed abroad and must be approved by the student, the sending and the receiving institution before the start of the exchange.

The Learning Agreement must be complete, and signed by all parties, before the Grant Agreement can be opened.
